TARIFF LAWS GAN'T RE MADE BY INTERESTS

Stone Intimates Mot . Lip. Bulgaria to Introduce Reserpitt's Attack on Cataron In the Attack on Cataron In the Attack on the Attack of the A

BILL FAVORS SOUTH, CHARGE

Northornor, Manufacturer of Cotton, Alleges Sectionaliam Is Displayed

WASHINGTON, Aug. 6,— Scuator Lippitt of Rhode Is land aroused Democratic lead ing deprived of Kavale a port on Ka-Smith of Georgia vehemently denied quent revision of the peace treaty the charge of sectionalism, declaring that the appeals of southern manufacturers for increases were unheeded by the finance committee. He called attention to the fact that the subcomshedule was composed of Senator Johnson of Maine, Sanator Hughes of Now Jorsey and himself. Stone of Missouri, referring to Senator Lippitt as a cotton manufacturet, reniarked that the time had passed when representatives of the interests could write the tariff laws.

"Before the distinguished senator from Rhode Island staced this body with his official presence," said Senafor Stone, "he was before the commitlee of the house and senate representing this very industry. It is not to the redit of our legislation of the past that the representatives of the cotton. wool, steel and other interests were permitted by the committees of conbress actually to prepare the tariff

talaresta Can't Write Teriff. hibition of the utter helplo-utre of will be ed util without the new way to a real the line of the discussion in the The foliate and Western, subserve the well-being of the manunized that we have gone beyond the dules. Doing that in the past has produced an economic condition in which the business of the country has the last election entered their vigor-

"Assaults made upon this bill along that line superciliously and contemptuate at a point on the old frontier west of ously will have no effect in deterring the Strume river, follows the waterus or in changing the fixed burpose to shed to the vest of the town of Struimerican people

Senator Weeks of Massachusetts asked Senator Stone to name some of the monopolies he referred to

"Perhaps," Senator Stone replied The senator would like me to mention he steel industry the wool industry and the cotton mills of New England (Continued on Page Two.)

ANOTHER BALKAN WAR IS LIKELY

ANOTHER "AMALGAMATION" SCHEME

THE optimistic persistence of those ambitious Republicans who would benevoleptly assimilate the Progressive party by a process they term "amalgamation" is equaled only by the uniformity with which their efforts fail. Habitually ignoring the truben distillation to mote a bergain. they bob up every now and then with complate plant for un'ing the two parties, and as regularly the plans fail because the Proto hit there Bir Hat dees not cool the with villages of the Republicans; they go at description of the state of the mean of with which a diswring man clutches at a

Two or three months ago the Hadkey-Market Spine The strong of Explications in the strong strong and the strong str

NAME OF SERVICE OF SER

What alls this man Action anyway? Het-All as the streephon of prest na-tion ride political (lift; e.t.) thing to be four by a feat of prestidigitation. He want get we "tride a of both parties" to-Mas, pulling a dinner table make a little profit in a prechast prestot the frequency from Presult quoddy light to See Chago and from Parenthesiand to Palette would be and gift will; the Republication lights. The united forces would be it and a the next election, and everybody out the 'to at the pie counter, and everything mund be wely.

Of course Mr. McHarg airily dismissesthe little matter of the differences in principles between the two parties, "Both Republicans and Progressives have been influenced for a generation by the same political thought," he says. "The Progressive movement was sociological and not political."

It is refreshing to learn the news imparted in that first sentence. If "the same political thought" influences both parties; and has influenced their members so long, why are they now as far apart as the

poles. The buth is that the Progressive. I fly cane into existence, and is now fla i study as a vehicle for the expression of a new and virile politi. I thought to which to Real feety tree - ten bound reactionism of the Republican party has brought it to juin it sees its misfake ... too late.

In his eagerness to consummate the desired fusion Mr. McHarg put his verb in the wrong tense in the last sentence above quoted. If is many, many years too early to use "was" in speaking of the Progressive. movement. He meant "is," However, the statement itself is incorrect. The Progressive movement is not sociological rather than political; it is both sociological ▼ I political, and this is so because the reactionary rule of the Republican party has forced societing hito pollities. Otherwise, where is a remedy to be found for the social and economic evils which today constitute perhaps the most serious problem in our national life?

LOCATION OF THE SHAN KIVE

THE committeemen who have been souciting subscriptions to the Shan Kive fund have met with an objection here and there that holding a part of the program at the Garden of the Gods will take busi-

the city. That objection comes from thosy who apparently do not ante understand the bigness of the propose. Shan Kive this year, nor are they fully cognizant of the situation.

There is no place near this city within the five cent car fare fimit where such a camp as proposed could be located. This camp begins at Adams crossing, not 500 feet from the car line. Right back of Adams crossing the red rocks in the Garden of the Gods, apon into a big natival amphitheater that is the properly of private people. The right to use this has been

Here will be built up a "Frail" consisting of various kinds of shows, a camp of 100 Indians and probably 500 cowboys. One day during the Shan Kive last year the street car compan, put 15,000 or 20,000 people into and out of Manitou in A few hours. This camp is on that Jouble track line and the crowds can be cared for. It can be reached by routes leading along Colorado avenue or by road over the Mesa and through the Garden of the Gods.

in this city there will be a d-wight parade, a night parade and the closing carnival. A great grandstand will be built on Kiowa street and small stands for the sale of confetti and notions will be placed on the streets. That gives the city as many downtown attractions or more than, it has had in other years.

By choosing the Garden of the Gods site the committee in a measure gives Manitou and Colorado City a part in the program and does not in the less take away from Colorado Springs. It is perfacily evident that most of the crowds of people who may come here or remain here for the Shau Kive are going to live at Colorado Springs and spend any money that they bring for sampling purpos's right bere. By going to an open growd, rather than holding a cornival on it city sheets. a vast amount of unpleasant things are avoided in the city.

But chief reason of all why the courmittee chose this site was the advertiring that can be drawn incent to of its to their in the rocks that are a list of the Greiden of the Cods weet. Some people cannot get that thoughts thout the Gardy finisher I sa the Gally of facts, but all that all terial in there is ready a part of the Garden THE RESERVE OF THE RE TIME THE STUBBLE COME BE NO IN STA Kive the It Less Alter Some of them lividing the biggest factoris in the dipas The five of their link and money (Life Al-1) to make 1 to make the post and (Life)

It is paracily evident that one Mulhalf the impaniest in the public eye as a parson who considerably annoyed certaier distingifffff American legisfators, wrom lettes to his employers in which he ad of Albacies that never cuisted. and of his presence at my lings that never hyphaed. The striking thing is the altiturn of the Republican press, which does not appear in the least shocked at either the willionality in the charges or the astonishing Mr. Mulhall, but is mad all the way through because someone has "snitched."

It is exactly the attitude of New York's East Side toward Rosenthal ... Because the alleged wrongs happened under Republican administrations then get a club and beat the snitcher to death seems to be their way. But that is absolutely consistent with old-time political methods that happily are passing. The world positively moves, the only stationary thing in it apparently being the antiquated party of Taft, Cannon and

CALL LEVILLE CO. animale On the Territ I could of the fairness to the go at at the corn still bold farmers today are holding a very large, an unusual amount of old corn, and this in the states where the damage has been the greatest. Thuy are therefore well fortified against the partfal failure in some states and damage in others

The great rival of corn in weight and value is that of hay, and to a large extent it can take the place of comwhen there is a shortage of that grain. The hay crop has been above an ave-age-there have been none ligger in the yield in the dry area, but in the main the crop is the second largest on record, with a total of \$5,510,000 tons. as against last year's magnificent yield of 72, 691,000 tons, and this large crop, with at least one-third of last year's crop still on the farm, will repair all the branches that will be made by a lessened corn yield. The hay crop this year is valued on the farm at \$1,000,-000,000.

Cotton-the snowy fleece of southern fields-promises at this period of the year to be a great crop, much in excess of last year, and ranking next to the prodigious yield of two years ago. The indications are for 14,700,000 bales. compared with 18,700,000 last year. A few years ago this would have been considered something phenomenal, but the south has been lifting its average yield in its staple crop, and having once made a crop in excess of 18,000,-900 bales, that record makes yields like that promised for this year look small. The extension of the acreage of cotton in Texas and Oklahoma has been the chief leader of the bigger evops, another bas been the remunerative prices of the past year; which makes the raising of this crop in any year a certain and profitable one.

Cotton differs greatly from other crops in that it is largely an exportable product. On the average the American mills only use one-there of the cotton grown. Europe and Asia. taking the other two-thirds. Considing that this country raises from three to four-fifthe of the cotton of the world, the importance of the crop is

increased. Sectional Summary.

NEW YORK, Aug. 4 - Rame engage of prisons. With good benavior can questo as your content. Will-\$3.51, molasses, \$2.95, refined firm.

NEW TORK, Aug. 6.—The outstanding feature of today's professional, and frequent stagmant stock market, was a temporary further rise in Union Pacific, based on gossip that some disc, tribution in cash or stock may follow the company's sale of Southern Pacific holdings. From sutheritative sources, it was learned that no foundation, exists for such rumors, but it is decline to an aroturn of the decline to an upturn of the

Reports, declared to be the worst of came rapidly during the last hour of the aksion. Some points in lows also sent word of a temperature of 104 in the shade, and predicted that two more

the antifracite roads.

The public utility stocks were unaffected by circumstantial reports that would appear. Experts in Kansas.

Under the joint pumping agreement.

A better demand for commercial pass a way not equaled since 1901.

When tagged corn. Heavy receipts the Golden Cycle Mining com- per by local and interior banks was the encouraged some beavy receipts the only notable change in monetary here encouraged some beavy receipts.

ports from Canada, where the harvest With some activity at better prices in though in advices that the wheat ar-Eries, New York Central dependires, riving in Chicago was already sold. Prisco 5s. Wabash 4s and Western and that country offerings were next to nothing, especially from Kansos and Missouri. Primary receipts were Missouri. Primary receipts were 2,206,000 bushels a year ago, 1,981,000 bushels. Export clearances of wheat and floor equated 2,338,000 tushels. Good threshing returns in northern sections made oats relatively weak. On

> Offerings dried up quickly in pro-visions. Purchasers were few, but took pains not to crowd the market on the advance.

the other hand, the east was a better

Colorado & Southern Railway .

· Has Been Designated as

The Official Line

by the Knights Templar of Colorado Springs and has contracted with them for a train to leave Colorado Springs at 6:20 a. m., August 12th, arriving in Denver at 8:50 a. m., to carry their members and their hand, who will participate in the parade.

Ample accommodations will be furnished to take care of all who wish to avail themselves of this opportunity to visit Denver on that date and witness the

Grand Knights Templar Parade

an event no one should miss. Trains leave Denver returning at 12:15, 3:30, 6:00, 7:45 and 11:30 p. m., giving an opportunity to witness the

Great Electrical Illuminations

which are on a grander scale than ever before attempted by any city. Secure tickets at
